Space: In Science, Art and Society (Darwin College Lectures)

Space: In Science, Art and Society (Darwin College Lectures)

This collection of essays explores different perceptions of space, taking the reader on a journey from the inner space of the mind to the vacuum beyond Earth. Eight leading researchers span a broad range of fields, from the arts and humanities to the natural sciences. They consider topics ranging from human consciousness to virtual reality, architecture and politics. The essays are written in an accessible style for a general audience.
