**Waste Production and Utilization in the Metal Extraction Industry (100 Cases)** Sehliselo Ndlovu, Geoffrey S. Simate, Elias Matinde

Metal waste treatment for resource recovery and recycling are major contributors to sustainable economic advancement. This book provides a holistic approach in metal waste management, reuse, and recycling in the mining and beneficiation processes, pyrometallurgical and hydrometallurgical processes, metal finishing and manufacturing, and post-consumer sectors. The book also details the policy and legislation regarding the waste management, health and environmental impacts in the mining, beneficiation, metal extraction and manufacturing processes. This book reviews current status and future trends in the recycling and reuse of mineral and metal waste.
