Adobe Illustrator 9.0 Classroom in a Book shows users how to master Adobe Illustrator in short, focused lessons. Created by Adobe's own training experts, it covers all the new features of Illustrator 9, including added compatibility with Macromedia Flash, a new Transparency Palette, and superior vector and raster graphics. Readers start with an introduction to Illustrator's many tools, brushes, and palettes. Lessons include making selections, painting, gradient fills, drawing straight lines, using type and creating type masks, outlining paths with patterns, printing artwork, producing color separations, and preparing finished artwork for print or the Web. Each lesson builds upon the knowledge learned in previous lessons, so readers have a full tour of the software by the time they have finished the book. The cross-platform CD provides all the lessons and images needed for each chapter. Previous Edition ISBN: 1-56830-470-6
