Preventive Detention: Asking the Fundamental Questions

Preventive Detention: Asking the Fundamental Questions

In any society, certain people pose a risk to others. For hundreds of years, preventive detention has been authorized by governments to ensure people are held in custody for: criminal proceedings, mental health issues, quarantine, inebriation, enemy alien status, sexual predator suspicion, etc. The policy has also been famously employed more recently to control suspected terrorists. In all of these areas, governments need to balance the protection of the community with the rights of the 'dangerous' person. These regimes have proliferated in recent years, and this book asks and answers some of the fundamental questions about these regimes: What are their doctrinal foundations? * Is there a risk in laws that blur the historic division between criminal and civil law, allowing civil law to be used for criminal law purposes, but without the protection normally provided to criminal defendants? * Are they effective in protecting people from harm? * How do these regimes challenge fundamental principles, such as human rights? * What are the remedies available to people who seek to challenge these regimes? Regimes that punish people who have not been convicted of a fresh crime or that contemplate the infliction of punishment upon breach of a 'control order' require careful scrutiny to avoid human rights abuse. The book considers preventive detention in its many varying forms across Europe, the Americas, and Australasia. It interrogates the theoretical underpinnings of these regimes and then critically analyzes these for consistency with international human rights. Preventive Detention: Asking the Fundamental Questions brings together respected international experts to guide lawmakers, policymakers, and academics in an increasingly significant area of penal and public policy.

Mathew Munz:

As a pupil exactly feel bored for you to reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just minor students that has reading's internal or real their hobby. They just do what the educator want, like asked to the library. They go to there but nothing reading critically. Any students feel that studying is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Preventive Detention: Asking the Fundamental Questions can make you experience more interested to read.
