Husserl's Legacy in Phenomenological Philosophies: New Approaches to Reason, Language, Hermeneutics, the Human Condition. Book 3 Phenomenology in the ... of Edmund Husserl (Analecta Husserliana)

In this third volume of a monumental four book survey of Phenomenology world-wide fifty years after the death of its chief founder, Edmund Husserl, we have a collection of studies which, in the first place, consider Husserl's legacy in the postmodern world. The extent of our indebtedness to the Master is shown in explorations of the archeology of knowledge, hermeneutics, and critical studies of language by A. Ales Bello, P. Pefialver, P. Million, V. Martinez Guzman, H. Rodriguez Pifiero, Y. Vlasisavlevich, and others. There follow calls for renewing the critique of reason by C. Schrag, F. Bosio, and J. Lerin Riera and discussion by D. Laskey, K. Górnica-Kocikowska, M. R. Barral, Y. Park, and N. Delle Site on A-T. Tymieniecka's phenomenology of life, which proposes a total reorientation of phenomenology by introducing a conception of the human condition in which the human creative act is the Archimedean point for philosophy.
