The Gaze Of Drifting Skies: A Treasury Of Bird's Eye Cartoon Views

This book collects vintage overhead crowd scenes, once a staple of cartooning.

Depicting the bustling crowds of humanity from magisterial heights was once a popular visual genre among artists and the public, regularly appearing in mass-market newspapers and magazines: carnivals and circuses, cook-outs and baseball games, bustling city streets and train stations or parades and epic battle scenes... artists depicted the everyday life of urban and country settings where communities gathered for fun and revelry. Adults and children alike could spend hours delighting in the details of these marvelously orchestrated scenes of human bustle. This coffee-table collection showcases the remarkable beauty and breadth of these forgotten American classics. Full-color illustrations with some black & white.
