PawPrints in the Sand: Mission Accomplished. A heartwarming dog book for all doglovers.

In its prequel, Paw Prints in the Sand, you read the heartwarming story about Foxy, the Nova Scotia Duck Tolling retriever who was sold to the owners of a puppy mill. Her story is one of encouragement and enables us to realize how important it is to rescue dogs living in the same type of cruel environment. The inspirational sequel continues when a man suffering with what some might call a critical mid-life crisis is contemplating life.

The game of life. It's a challenging one-- sometimes breeding days of triumph while other times propagating feelings of despair.

Many have found a way to enjoy a balance-- counting their blessings when times are good and finding comfort with loved ones when the cards are stacked against them.

Others are not as fortunate, taking life's trials to heart, letting them fester into the very depths of their soul, allowing tragedy to dig seemingly irreparable trenches in their hearts.

What they may not realize is that there is a way to tunnel themselves out and patch those dark holes.

The picture they've painted for themselves might appear dismal and bleak, but if they make the choice to paint with a different brush, they have the power to change their outlook--quite often with a little help.

You often hear stories about how people rescue dogs, but quite often, it is the opposite that is true. For Harrison Carter, his canvas couldn't have displayed a more dreadful future, but that was about to turn around for him. He was about to discover one of the best kept secrets for happiness. One he never thought could...and would change his life forever. It just so happened that it involved a four-legged creature with a furry coat and a fluffy tail.

A fictional novella about dogs
