**Specialty Imaging: Gynecologic Oncology: Published by Amirsys®** Akram M. Shaaban MBBCh, Maryam Rezvani MD, Todd M. Blodgett MD

**Specialty Imaging: Gynecologic Oncology** is the first and only Amirsys book dedicated exclusively to cancers of the female reproductive system. Using more than 400 detailed images and nearly 130 pages of easy-to-read bulleted text, Dr. Akram Shabaan and team carefully describe the imaging appearance, staging, techniques, and treatment options for cancers of the vagina, vulva, ovary, cervix uteri, corpus uteri, and fallopian tube. The book includes the brand new Seventh Edition AJCC cancer staging tables, which provide the definitions for TNM, FIGO stages, and AJCC prognostic groups for all gynecologic cancers. High quality images illustrate nearly every stage of every type of these cancers, helping clinicians accurately identify and treat some of the most physically and psychologically devastating cancers of our time.
