Teachers Engaged in Research Information Age Publishing

This volume was written primarily for teachers who have developed (or who are being encouraged to develop) an awareness of and commitment to teaching mathematics for understanding. The research findings presented in these chapters suggest instructional implications worthy of these teachers' consideration. Often, the authors in this volume describe instructional practices or raise issues that have the potential to broaden views of teaching and learning mathematics. These chapters provide interesting problems and tasks used in the authors' work that readers can use in their own classrooms.

From reader reviews:

Katrina Frey:

The reason why? Because this Teachers Engaged in Research is an unordinary book that the inside of the publication waiting for you to snap that but latter it will distress you with the secret this inside. Reading this book adjacent to it was fantastic author who have write the book in such remarkable way makes the content within easier to understand, entertaining approach but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any longer or you going to regret it. This excellent book will give you a lot of gains than the other book get such as help improving your talent and your critical thinking means. So , still want to postpone having that book? If I were you I will go to the e-book store hurriedly.

Michael Banks:
