## **Oracle 9i: Developing Web Applications with PL/SQL Server Pages** Rajeev Kaula

The Oracle 9i: Developing Web Applications with PL/SQL Server Pages book outlines the structure and use of Oracle's primary database language PL/SQL as a server-side Web scripting language for developing Web applications. It enhances the understanding of relational databases within the context of Web applications. The book also provides a visual approach to develop database-driven Web applications through NetObjects Fusion Web authoring software in conjunction with the HTML language. There are sample databases, numerous examples, and tutorials in the book to explain the various concepts. Each chapter ends with summary, review questions, and problem solving exercises. The book is written for college students and moves at a pace suitable for students.
