This innovative product uses interactive video to show you how automating some aspects of image editing with Adobe Photoshop can speed up your process without sacrificing image quality. Learn how to process multiple RAW captures efficiently; how to quickly rename, resize, and even apply changes in appearance to a group of images; and how to process multiple images for quick sharing. You'll also explore actions, an incredibly flexible and powerful tool in Photoshop for processing one or more images in a consistent way. You'll learn how actions can streamline a complex workflow, apply creative effects consistently, or prepare images for sharing.

Experienced instructor Tim Grey presents 2:25 hours of high-quality HD video, complete with lesson files, assessment quizzes, and review materials. The video is wrapped in a unique interface that allows the viewer to jump to any topic and also bookmark individual sections for later review. The unique Watch-and-Work mode shrinks the video into a small window to allow the student to work alongside in Photoshop. Project files used in the lessons are included on the disc so viewers can practice what they've learned, and interactive review questions help reinforce freshly gained knowledge.

The DVD-ROM is bundled with a printed booklet that provides supplemental material to enhance the video training.
