The Egypt of Nasser and Sadat: The Political Economy of Two Regimes (Princeton Legacy Library)

John Waterbury

A balance sheet of thirty years of revolutionary experiment, this work is a comprehensive analysis of the failure of the socialist transformation of Egypt during the regimes of Nasser and Sadat. Testing recent theories of the nature of the developing states and their relation both to indigenous class forces and to external pressures from advanced industrial societies, John Waterbury describes the limited but complex choices available to Egyptian policy-makers in their attempts to reconcile the goals of reform and capital accumulation.
