Capitalism & Slavery Eric Williams

Capitalism and Slavery by Eric Williams. PREFACE: THE PRESENT STUDY is an attempt to place in historical perspective the relationship between early capitalism as exemplified by Great Britain, and the Negro slave trade, Negro slavery and the general colonial trade of the seventeenth and eighteenth centuries. Every age rewrites history, but particularly ours, which has been forced by events to re-evaluate our conceptions of history and economic and political development. The progress of the Industrial Revolution has been treated more or less adequately in many books both learned and popular, and its lessons are fairly well established in the consciousness of the educated class in general and of those people in particular who are responsible for the creation and guidance of informed opinion. On the other hand, while material has been accumulated and books have been written about the period which preceded the Industrial Revolution, the world-wide and interrelated nature of the commerce of that period, its direct effect upon the development of the Industrial Revolution, and the heritage which it has left even upon the civilization of today have not anywhere been placed in compact and yet comprehensive perspective. This study is an attempt to do so, without, however, failing to give indications of the economic origin of well-known social, political, and even intellectual currents. The book, however, is not an essay in ideas or interpretation. It is strictly an economic study of the role of Negro slavery and the slave trade in providing the capital which financed the Industrial Revolution in England and of mature industrial capitalism in destroying the slave system. It is therefore first a study in English economic history and second in West Indian and Negro history. It is not a study of the institution of slavery but of the contribution of slavery to the development of British capitalism.

It is really fun for you. If you enjoy the book which you read you can spent all day long to reading a guide. The book Capitalism & Slavery it is very good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. If you did not have enough space to bring this book you can buy the e-book. You can m0ore simply to read this book out of your smart phone. The price is not to fund but this book has high quality.

Richard Mendoza:

As a college student exactly feel bored to reading. If their teacher asked them to go to the library or even make summary for some e-book, they are complained. Just minor students that has reading's heart and soul or real their leisure activity. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Capitalism & Slavery can make you sense more interested to read.
