ISO 8066-2:2001, Rubber and plastics hoses and hose assemblies for automotive air conditioning - Specification - Part 2: Refrigerant 134a ISO/TC 45/SC 1

This part of ISO 8066 specifies the requirements for rubber or thermoplastic hoses and hose assemblies used for circulating liquid and gaseous R134a (tetrafluoroethane) in the air-conditioning systems of automobiles. The hoses and hose assemblies are designed in such a way as to restrict losses of refrigerant and contamination of the system. The operational temperature range is $-40\text{ }^{\circ}\text{C}$ to $+125\text{ }^{\circ}\text{C}$. Due to the critical relationship between the hose and coupling for this application, a requirement that the coupling to be used in service be used for testing is laid down.

From reader reviews:

Katherine Anderson:

The publication with title ISO 8066-2:2001, Rubber and plastics hoses and hose assemblies for automotive air conditioning - Specification - Part 2: Refrigerant 134a includes a lot of information that you can learn it. You can get a lot of profit after read this book. This particular book exist new information the information that exist in this e-book represented the condition of the world today. That is important to you to be aware of how the improvement of the world. This book will bring you inside new era of the global growth. You can read the e-book on the smart phone, so you can read the idea anywhere you want.

Charles Kinsella:

You are able to spend your free time you just read this book this e-book. This ISO 8066-2:2001, Rubber and plastics hoses and hose assemblies for automotive air conditioning - Specification - Part 2: Refrigerant 134a is simple bringing you can read it in the recreation area, in the beach, train and also soon. If you did not get much space to bring the particular printed book, you can buy often the e-book. It is make you simpler to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Randolph Urban:

Is it an individual who having spare time in that case spend it whole day by means of watching television programs or just resting on the bed? Do you need something totally new? This ISO 8066-2:2001, Rubber and plastics hoses and hose assemblies for automotive air conditioning - Specification - Part 2: Refrigerant 134a can be the solution, oh how comes? A book you know. You are therefore out of date, spending your time by reading in this new era is common not a nerd activity. So what these guides have than the others?

Mary Adameczyk:

As a scholar exactly feel bored to be able to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just little students that has reading's soul or real their passion. They just do what the educator want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading through is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this ISO 8066-2:2001, Rubber and plastics hoses and hose assemblies for automotive air conditioning - Specification - Part 2: Refrigerant 134a can make you feel more interested to read.
