Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series)

Bernhard Schölkopf

Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series)

Bernhard Schölkopf

Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series) Bernhard Schölkopf
In the 1990s, a new type of learning algorithm was developed, based on results from statistical learning theory: the Support Vector Machine (SVM). This gave rise to a new class of theoretically elegant learning machines that use a central concept of SVMs -- -kernels--for a number of learning tasks. Kernel machines provide a modular framework that can be adapted to different tasks and domains by the choice of the kernel function and the base algorithm. They are replacing neural networks in a variety of fields, including engineering, information retrieval, and bioinformatics.*Learning with Kernels* provides an introduction to SVMs and related kernel methods. Although the book begins with the basics, it also includes the latest research. It provides all of the concepts necessary to enable a reader equipped with some basic mathematical knowledge to enter the world of machine learning using theoretically well-founded yet easy-to-use kernel algorithms and to understand and apply the powerful algorithms that have been developed over the last few years.

From reader reviews:

Charles Tebo:

In other case, little people like to read book Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series). You can choose the best book if you want reading a book. As long as we know about how is important a new book Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series). You can add knowledge and of course you can around the world with a book. Absolutely right, simply because from book you can learn everything! From your country until finally foreign or abroad you will end up known. About simple issue until wonderful thing you could know that. In this era, we can easily open a book or searching by internet device. It is called e-book. You may use it when you feel fed up to go to the library. Let's read.

Brenda Gregg:

Nowadays reading books become more and more than want or need but also turn into a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the particular information inside the book this improve your knowledge and information. The details you get based on what kind of book you read, if you want drive more knowledge just go with education and learning books but if you want really feel happy read one along with theme for entertaining such as comic or novel. The actual Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series) is kind of reserve which is giving the reader unforeseen experience.

Lorena Repass:

Hey guys, do you wants to finds a new book you just read? May be the book with the title Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series) suitable to you? Typically the book was written by famous writer in this era. Often the book untitled Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series)is the one of several books that will everyone read now. That book was inspired many people in the world. When you read this publication you will enter the new dimensions that you ever know ahead of. The author explained their plan in the simple way, thus all of people can easily to understand the core of this guide. This book will give you a wide range of information about this world now. So you can see the represented of the world within this book.

Jerry Brower:

Do you have something that you want such as book? The book lovers usually prefer to choose book like comic, limited story and the biggest some may be novel. Now, why not trying Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine

Learning series) that give your fun preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the opportinity for people to know world far better then how they react in the direction of the world. It can't be claimed constantly that reading practice only for the geeky man but for all of you who wants to always be success person. So , for all of you who want to start looking at as your good habit, you can pick Learning with Kernels: Support Vector Machines, Regularization, Optimization, and Beyond (Adaptive Computation and Machine Learning series) become your own starter.
