Managing the Dollar: From the Plaza to the Louvre Funabashi Yoichi

Managing the Dollar, published four years after the Plaza Agreement took place, was the initial analysis of lessons learned and takeaways from the finance ministers' policy efforts in 1985. Based largely on interviews, immediate analysis illuminates the forces at play and the differences of opinions among the policymakers and how collaborative economic integration can be improved. The piece is being republished to celebrate the 30-year anniversary of the accord and as a companion to a new long-term retrospective.
