Bronchitis is a respiratory disease, very common and an inflammation or irritation of the lining of the bronchial tubes, which carry air to and from the lungs. When these tubes get infected, they swell and mucus forms inside them. This makes it hard for you to breathe, leads to cough and difficulty getting air in and out of the lungs.

Bronchitis and cough often develops from a cold or other respiratory infection and may become chronic. Chronic bronchitis can lead to pneumonia, asthma, bronchiectasis, cystic fibrosis and tuberculosis. It can also develop COPD (chronic obstructive pulmonary disease).

In this naturopathic adviser, I will give you recommendations how to treat bronchitis and cough with homeopathy, Schuessler salts (also named cell salts, tissue salts, biochemistry), herbal tinctures and acupressure. I will present you the most proven homeopathic remedies and Schuessler salts, including the appropriate potency and dosage. Homeopathy works holistically and treats the whole body, spirit and soul.

Acupressure comes from the Far East. During the acupressure treatment special points are pressed, massaged or rapped. As long as the energy is distributed evenly throughout the energy channels (meridians) of the body, the person is healthy. When the energy flow is disrupted, the person is sick. By treating certain points, the energy between the meridians will be balanced and the patient gets enough power to become healthy.

I wish you much success in your treatment of bronchitis, joy of life and especially your health.
