Cancer Pain Management: A Comprehensive Approach

Cancer Pain Management: A Comprehensive Approach

Cancer related pain can successfully managed in the majority of patients by the use of medication. Some patients, however, have pain that does not respond to opioids, and require more specialized pain management techniques. Examples of such treatments are nerve blocks, radiotherapy, acupuncture and physiotherapy. This is the first book to provide detailed information on all of the alternative methods of pain management. The editors are experienced researchers researchers who have brought together an international team of pain specialists, palliative medicine doctors and oncologists to provide a practical, comprehensive guide to non-drug management of cancer pain.
